Please send the completed calendar, with entries for 3 weeks, back to us promptly before the follow up.

- Itching
- Degree 0 Normal dog not itching especially much
 - Degree 2-3 Only slightly more itching than before the skin problem began
 - Degree 4-5 Does not itch while eating, playing or training. Can be distracted from itching easily
 - Degree 6-7 Also itches at night, but does not itch while eating, playing or training. Medium itching, regularly observed
 - Degree 8-9 Severe itching for long periods of time. Also itches at night, stops other activities such as eating, playing or training. Cannot be distracted from itching
 - Degree 10 Extreme itching, almost non-stop. Nothing can distract the dog from itching including stress (e.g. visit to the veterinarian). Itches so intensely that they must be physically prevented.
